SYLRDS 10 LOW REFLECTANCE
ARCHITECTURAL WINDOW FILM

SunTek® Window Films aid in energy savings by cutting heat gain, reducing hot spots and increasing overall comfort. By having SunTek Window Films professionally installed, you can prevent up to 79% of the sun's energy from altering the internal environment of your home or office building.

SunTek Window Films as a company, as well as the films themselves, are environmentally friendly. To see more about our initiatives to contribute to our environment in a positive way, along with in-depth product information, specifications, case studies and testimonials, please visit our website at www.suntekfilms.com.

*The amount of savings will differ depending on the window film used, the size and construction of the home and the geographic region of the home's location.
